❖ Vinification

Vines at optimum phenolic maturity. Temperature controlled vinification. Maceration for several days with micro-oxygenation to encourage aromatic expression and round tannins. No fining. Light filtration before bottling.

❖ Tasting Notes

Deep purple color. Slightly jammy red and black fruit (cherry, strawberry, black berry) already dominates the nose, highlighted by notes of smoke and licorice. The attack is smooth, almost lush, with plenty of fullness on the palate. The firm tannic structure will allow this wine to be cellared for several years.

Enjoy with grilled or roasted meats and hard cheeses. In 5 to 8 years it will be a perfect accompaniment to spicy dishes.
